

DO NOT CALL is the best thing to happen to our phone service since they got rid of party lines. Are you kidding trying to change this? The only POSITIVE thing I will remember about our past govenor was the initiation of this law.

Telemarketers are a nuisance, but more importantly they are a TOTAL INVASION OF OUR PRIVACY. It's bad enough you can't stop the e-mail invasion - however, our home life is precious, personal, and PRIVATE.

I urge you to leave this law alone. New Jersey has a reputation for being pathetically LIBERAL in so many ways. At least they had the GUTS to stand up to this issue.

We are invaded with images from TV, radio, billboards, magazines, etc. It is hard enough to keep the garbage affecting our children down to a minimum. The ONLY PEOPLE CALLING MY HOME -- should be people I CHOOSE TO GIVE MY NUMBER TO.
